

Number Cards

These cards are designed to help your child identify the numbers 1-20, practice counting with 1:1 correspondence from 1-20, identify number words 1-20, and also learn Roman numerals from 1-20.

Print the sheets on cardstock, cut and then laminate to make them more sturdy for younger children.

There are many different ways to use the cards. You can have your child sequence the numbers in the correct order, match the correct number card to the corresponding dot card, match Roman numerals to numbers...the rest is up to you!

Need a brush up on Roman numerals? Here's a little key for you to work with:
