How this book works

Once children can distinguish individual sounds within words, they are ready to start reading. In the early stages, reading is like cracking a code. As well as being able to match the alphabet letters to

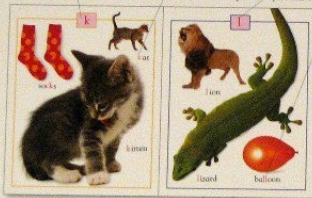

their most common sounds, children also need to learn that sounds are sometimes represented by a combination of letters. This book is a simple introduction to the main sounds and spellings of English.

The 33 sounds appear in alphabetical order.

The sound is always picked out in red.

The sound featured is shown in top box.

Each page features just one sound.
